Geomancy and Biochemistry make uneasy bedfellows, but that was precisely why Boon's readings worked for me. Beyond her credentials in the field of Geomancy, her professional background in the sciences helped to demystify an archaic ritual.

She has read two locations for me since 2003 - my office and my new home.

For someone unaccustomed to Feng Shui, I felt immediately at ease with her. You will find her quick grasp of your needs and her ability to apply practical remedies invaluable. Unlike other practitioners, Boon's appreciation of aesthetics results in solutions that work within a design brief.

I've always believed that many things cannot be explained by logic alone. For me, Geomancy treads a fine line between the spiritual and rational. It helps to work with someone well-read in both.

Edwin Leong

Deputy Chairman/Executive Creative Director
