

What Students from All Walks of Life say about the Course and Master Boon

INTERMEDIATE FENG SHUI PRACTITIONERS COURSE

fengshui
FOR ENRICHING LIVES

Master Boon is a great teacher, teaching authentic Feng Shui from a great lineage. Her teaching is clear and simple. She is friendly, approachable and full of integrity.

The only way to learn Feng Shui properly is through the right Master, and not from books. The knowledge and skill taught in the Elementary and Intermediate course is far more valuable than those contained in any Feng Shui books and other courses that I have attended.

Dear Master Boon

Thank you for encouraging me to attend your Feng Shui Elementary course in Port Dickson in November.

I was initially reluctant to attend as I thought it was a course for Feng Shui practitioners. However, I found this course extremely relevant even to lay persons like me who am only interested to use Feng Shui to improve various aspects of my own life. Your course was very easy to follow but at the same time gave much in-depth knowledge and a deeper understanding from what we normally get from reading Feng Shui books.

I especially liked the case studies you presented (which summarised what we had learnt) and the opportunity for us to bring our house plan as an additional case study. It gave us a chance to practice what we had learnt in the course; and through practical application, the learning process is so much more efficient.

It was also a huge bonus to have Grandmaster Yap give us some insights and tips on the 3rd day of the course.

I have consulted a few Feng Shui masters previously for my house and office. However, after attending your course, I have a much better understanding of the remedies these Feng Shui masters gave for my premises. I am now sought after by my friends to give them my '2 cents' (although I am only doing this as a favour to help my friends, GM Yap says we must ask for a token payback) worth of Feng Shui reading although I am quick to remind them that I have yet to attend intermediate course. I have also recommended that they attend the course to learn for themselves also if they have an interest in this field.

I am very much looking forward to attend your intermediate course next year.

Thanks again and see you next year.

This is a genuine classical Feng Shui course. At the elementary practitioner course level, it already reveals vast amount of information. We were taught the secrets of precision tapping of auspicious Qi. In particular case, these are 24 directions to choose from, not only just 8 and this is done without demolishing or costly renovating, without transforming a house to a “bazaar” with all sort of objects and pendants. The course book is very helpful. At the end of this journey, one may already apply Ba Zhai confidently, to enhance our luck.

For beginners and non-Chinese speakers, Master Boon has demonstrated such an unbelievable patience. She ensured I learnt my material and correcting my 24 directions Chinese pronunciation in order that I have a solid grounding for Intermediate.

Above all, Master Boon has answered many many questions without restrictions. There were no answers like “will see that in upper Module”.

Non-speaking Chinese people particularly in the West have no access to classic Feng Shui because of language barrier. Thanks to the YCH Academy, we are now able to learn this famous ancient science without having learnt Chinese.

I am very happy about my Feng Shui journey with you, Master Boon. Please accept my thanks for your kindness to me. Keep it accessible and ‘user-friendly’, especially in advanced courses.

My sincere gratitude to the Yap Cheng Hai family.

The workbook is simple and in logical sequence. Paired with class discussion, the sessions gave solid grounding on the fundamentals. This is a good program, answering the “why” of Feng Shui providing background to the theory and derivation of the formulae. We were taught great flexibility of application without straying from true feng shui principles.

Master Boon teaches with a balance of nurturing, and encouragement for us to think for ourselves. Clear explanations were given.

Both the Elementary and Intermediate Feng Shui retreats are recommended for those who would like a firm grounding on fundamentals. This makes the courses intense since Boon shares her lineage’s wealth of knowledge so generously. Investing effort to learn in these retreats will definitely differentiate YCH students from other Feng Shui programs. Rather than relying on mass marketing, these courses’ strengths are anchored on actual experience of Grandmaster Yap, which was translated to the high quality of the education, and the personalized approach to assist the students’ learning.

The Yap Cheng Hai Academy continues teaching in the tradition of Classical Feng Shui, teaching formulae and secrets that are not widely known or used by more modern masters. Following in her father’s footsteps, Master Boon delivers Feng Shui training in a professional way, and is strongly committed to furthering and sharing her knowledge. She encourages questions in class and goes out of her way to connect with everyone, ensuring that there are ample opportunities for clarifying doubts and practical examples. The courses are structured so that students have a clear idea of how the formulae are

to be applied. Under Master Boon's tutelage, students will gain insights into the workings of this potent art.

After Intermediate, I felt so rejuvenated, alive and so positive, but most important at peace with myself. Thank you Master Boon. I now sleep early and wake by 4:30 am / 5:00 am. No clocks required. I read my Feng Shui notes at this time. I am so thrilled. Thank you! I look forward to May 2005 and have made plans to save up.

Love,
Soraya

ELEMENTARY FENG SHUI PRACTITIONERS COURSE

The Course material is very detailed, very beneficial, and very comprehensive. Would have been easier if there was English pinyin pronunciation next to the words.

Master Boon is very good. She is very patient and very helpful with our questions and answers them very thoroughly.

A great teacher who is very knowledgeable and cares about how well her students are learning the material. Practice on case studies is very beneficial to aid learning.

Grandmaster Yap coming on Sunday was a great bonus for us.

Overall a very good course. Will definitely recommend to all my friends.

The Course is very well planned and very informative. A great course, I enjoyed it!
Master Boon was sometimes too serious and academic during delivery but very detailed. Other times, she was very friendly and wonderful. I am happy she shares all her information. I love it! Master Boon is very good to accept questions privately and then happy to share with all attendees the questions and answers.

To me doing a revision was still very helpful because this Elementary Course is much more detailed than the previous Module1. Therefore, some of the information was good to deepen!

The teaching was very clear most of the time! And got some very good inputs which I can incorporate in my work.

So thank you very much and it was definitely worth the effort, time and money!

Good, very detailed, easy to understand. Gives good explanations, which made it even clear and easy to understand.

I find the Master Boon a very dedicated instructor. Often tells jokes, gives us special tips on how she remembers stuff and often shares stories of her experiences.
