– Master Boon Yap

Led by

Master Boon Yap

An international Feng Shui consultant and teacher, is a scientist by academic training.

Her father is Grandmaster Yap Cheng Hai, the well-respected scholar, teacher and practitioner of Feng Shui, who in recent years brought this classical Eastern wisdom to the West.

Boon Yap, Feng Shui Master and director of Feng Shui for Enriching Lives, teaches Feng Shui in various parts of the Asia Pacific region and consults worldwide. She is being called on more and more to bring the ancient Eastern wisdom of Feng Shui to people in both Eastern and Western countries.

She has been immersed in Feng Shui all her life, as her father is the well-respected scholar, teacher and practitioner of Feng Shui, Grandmaster Yap Cheng Hai.

Master Boon honed her early knowledge of Feng Shui through formal study, where the logical and analytical basis of Feng Shui spoke to her trained scientific mind. She believes the multi-faceted aspects of Feng Shui need to be better communicated as it is a complex discipline and not easily presented in one simple drawing.

Her courses and practice follow her father's holistic approach to the various schools of Feng Shui. Grandmaster Yap was the first to amalgamate all the major systems, eking out the essence of the knowledge from the major philosophies to find the ultimate solution for each situation. Master Boon particularizes Feng Shui to take into account the person or the building as she says one size does not fit all.

Master Boon promotes a deeper understanding of this ancient wisdom and provides her expert Feng Shui know-how to those who wish to enrich their lives through living in harmony with the forces of nature.

She also runs a successful business consultancy in strategic marketing and international business development for the biomedical industry throughout Asia Pacific. She holds an MSc in medical research, plus an MBA.

"Master Boon is a great teacher, teaching authentic Feng Shui from a great lineage. Her teaching is clear and simple. She is friendly, approachable and full of integrity.

The only way to learn Feng Shui properly is through the right Master, and not from books. The knowledge and skill taught in the Elementary and Intermediate courses are far more valuable than those contained in any Feng Shui books and other courses that I have attended."

For those of you who think this course is only for Practitioners, think again!

"Dear Master Boon

Thank you for encouraging me to attend your Feng Shui Elementary course in Port Dickson in November.

I was initially reluctant to attend as I thought it was a course for Feng Shui practitioners. However, I found this course extremely relevant even to lay persons like me who is only interested to use Feng Shui to improve various aspects of my own life. Your course was very easy to follow but at the same time gave much in-depth knowledge and a deeper understanding from what we normally get from reading Feng Shui books.

I especially liked the case studies you presented (which summarised what we had learnt) and the opportunity for us to bring our house plan as an additional case study. It gave us a chance to practice what we had learnt in the course; and through practical application, the learning process is so much more efficient."

I am very much looking forward to attend your intermediate course next year.

Thanks again and see you next year.

"The Course material is very detailed, very beneficial, very comprehensive. Master Boon is very good. She is very patient and very helpful with our questions and answers them very thoroughly.

A great teacher who is very knowledgeable and cares about how well her students are learning the material. Practice on case studies are very beneficial to aid learning."
