

# Feng Shui for Enriching Lives

## The importance of our home

For most of us, our home represents the most expensive single purchase we will ever make in our lives. Most of us go to some lengths to inspect its structural integrity. We may then spend a good deal more redecorating, to suit our individual tastes. Why?

Because for those with sufficient means it is a showpiece. For the great majority (workaholics excepted), it is the one place where we spend most of our waking and sleeping hours. Most importantly, it embodies our inner sanctity. So it is not surprising to find that homeowners and even those renting, are turning to the traditional Chinese science and art of Feng Shui.

## Does Feng Shui truly work?

Yes - but only if done properly. Feng Shui has the ability to not only safeguard the well-being of your family, but the power to truly enrich your life, bringing good health, harmony and prosperity.

Authentic classical Feng Shui is about:

- Compass direction and location of 'forms' i.e. mountains, buildings, rivers, roadways, the shape, size, appearance and lay of the land.
- Determining energy flows in and around the property.
- How the Five Elements are carried in these energies and interact with the surroundings.
- Time influence on the above.

So would you leave your chances to mere colours, wind-chimes, mandarin ducks or money frogs?

## How to identify a good practitioner

The ability to harness your Feng Shui luck, depends on the practitioner. If family welfare and optimising your good fortune is important to you, then ensure your Feng Shui is performed by a qualified consultant who has in-depth knowledge of the classical systems, has some years of experience and brings a handy dose of insight.

There are currently many self-proclaimed masters. It is important to differentiate the authentic from the 'pop', and the true masters from the commercial.

**But, what if we want to do it ourselves?**

**Can we achieve a good understanding of Feng Shui from books?**

**Are you confused by the contradictions in Feng Shui books?**

Authentic, classical Feng Shui is very complex to communicate in print. To begin, there are several systems and numerous formulae, which contradict each other. To add to the confusion, there are many lineages that differ within their individual methodologies, but are effective in their own way. Assuming of course the author is privy to these secrets in the first place.

Unavoidably, many authors are only able to document a small part of the discipline, which really only provides a piece of the jigsaw puzzle. Of this, they may focus only on the tangible - like the use of symbols and recognising 'forms'.

For these reasons, Feng Shui continues to be a mystery to many and eludes those interested in reaping the full benefits.

A word of caution. As Feng Shui is about harnessing the beneficial energy of the environment, inappropriate practices can inadvertently tap the negative forces and cause harm. Books can provide a starting point on your journey to understanding this ancient wisdom. But to gain sufficient knowledge to practice on oneself and others, it is best to learn from a recognised and credible source.

### Learn authentic classical Feng Shui from the Yap Cheng Hai Lineage

Now you can acquire the knowledge and skills of authentic classical Feng Shui from Yap Hwee Boon, a direct lineage of the famous, **Grandmaster Yap Cheng Hai**. Grandmaster Yap is a well-respected scholar, teacher and practitioner of Feng Shui, who in recent years has been responsible for introducing the most comprehensive aspect of this classical Eastern wisdom to the West.

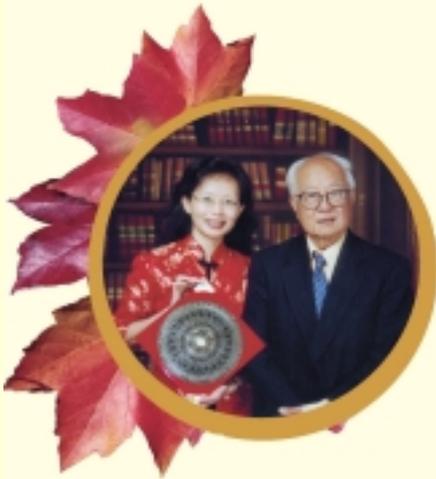

### About Boon, Principal Consultant and Instructor

Boon is the only daughter of Grandmaster Yap Cheng Hai, and resides in Australia. She is a scientist with a BSc Hons in biochemistry and MSc in medical research, plus an MBA. Boon has been in executive management for bio-medicine and now runs a successful business consultancy in strategic marketing and international business development.

Her lifelong association and deep interest in Feng Shui, has led to requests for her Feng Shui expertise on commercial and residential properties in Australia, New Zealand, Singapore, Malaysia, USA, UK, Taiwan and Thailand. She shares her father's vision in making authentic Feng Shui accessible to all, through his worldwide YCH Professional Feng Shui Series™ classes. Boon will be lecturing at a series of classes in Kuala Lumpur in September.

Boon promotes a deep understanding of this ancient wisdom and provides her expert Feng Shui know-how, to those who wish to enrich their lives by living in harmony with the forces of nature. Her vision is for this ancient wisdom to achieve modern context in our daily lives.

### YCH Professional Feng Shui Series™ Module 1 (Beginners Intensive)

The Course is structured to:

- Provide groundwork for subsequent learning
- Present knowledge of three major methods
- Impart vital secrets of effective application that have proven results

It provides:

- Foundation of the Classics
- Principles on Forms, Eight Mansions and Flying Stars
- Highlights practical application.
